

SUNGLASSES A SUBLIME GIFT TO OFFER

The end of the year is approaching, and the **Christmas gift race** is in full swing. To some people, ideas flow, while others might find themselves running everywhere on December 24 in search of a nugget.

This year, latecomers will be rare thanks to a **selection of sunglasses by MOREL**, leaving no one behind, delighting both men and women. Here is a quick overview to discover the world of eyewear for HER and HIM, with **colorful, iconic, and atypical models** from capsule collections, signed **Marius MOREL Collection Originale and MOREL par Jean Nouvel**.

- FOR HER -

Model 80086A

Dressed in **pastel pink**, this solar model has a retro style. The powdered pink line inserted into the acetate outlines the eyebrow, and the thick temples are highly protective.

- FOR HIM -

Model 80092A

Under **false aviator airs**, these sunglasses also offer **scales** to these gentlemen, but more **bluish** so as not to surprise too much. All in acetate and comfort, they are the perfect gift.

ROXANE model

Ultra-feminine and glamorous, this **butterfly bezel** with **Swarovski rhinestones** on the arch is a **replica** of a collection launched by MOREL in the **1950s**. A daring, absolutely stunning design.

ISIDORE model

An iconic model from the Marius MOREL Collection Originale capsule, this flagship model is **timeless and elegant**. Like ROXANE, it's a **replica of the 50s**. A must-have for parties.

MOREL
PAR JeanNouvel

Model 90009C

Recognizable from afar, these two models reflect the **radical design** of the **architect Jean Nouvel**, with whom MOREL collaborates again. Clean lines, frank character. Matte black, pure elegance.

Model 90011C

Unisex model for this MOREL collection by Jean Nouvel. No chance of being wrong. **Round by its shape**, this is the tempo it gave to this collection; through softness and **transparency**.
